- There are three papers in each session. Each paper is allocated **20-minute presentation + 5-minute Q&A**. During the presentation only a limited number of urgent clarification questions will be admitted.
- All participants are muted by default. Questions are asked by using the **chat function** (and are publicly visible to other participants). The chair manages the queue. For **clarification questions** during the presentation, participants can use the **“hand” function**.
- Chairs are kindly requested to manage the **timing** of their sessions **strictly** so as to allow a smooth transition between and across sessions. The 30-minute-per-paper rules applies also to the few 2-paper sessions, to allow participants to switch sessions.
